Release Notes 2.3.2
February 21, 2005

The following items have been moved (migrated) to Production for use by Agencies beginning on February 21, 2005

- An online edit was added so that users cannot process a retroactive termination if the employee has an action with an effective date greater than the termination action and the action is not cancelled.

- The Employee Realignments Mass Mask process was updated to add the 'Reports To' field to the run control page. The program will insert the 'Reports To' information on the position data record and employment record when a realignment action is processed using the Employee Realignments Mass Mask process.

- An update to the LEI date edit was made so that edit will not display for 702A actions. Also, the edit was updated so that it only displays when the WIP status is PRO.

- HE_IM36228 – Wage grade salary table load 080R.

- New fields were added to the position data component, description tab to track data under the FAIR act. Three fields were added: Position Subject To, Activity Function Code, and Reason Code.

- The online edit that prevents users from keying an action with a department that with an 'X' status (set to be inactivated) was updated. Users can now print the SF-50 for employee's whose departments will be inactivated.

- The online salary capping logic was updated to reflect the new OPM guideline which caps GS/GM employees at the EX Level IV.

- The SF-50 program was updated to include the correct capping logic for ES, SL, ST, GS and GM employees.
